# Lab Quest

(Tuning Skills for Laboratory Precision)

## About The Programme

The diagnostic laboratories are so wide and vast in technicality, protocols, procedures, interpretative results etc and a sound foundation is a necessity.

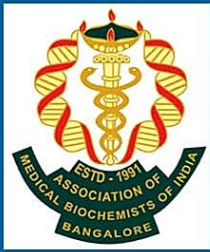

The topics covered will range from basic simple laboratory operations inclusive of tube selection, transport, water selection to wider aspects of mandatory mathematics and statistics in daily practices.

Familiarity with automation, technicalities such as electrophoresis, certain simple manual assays with clinical interpretation will be highlighted.

This programme, we wish generates a never dying interest and passion to showcase the importance of “doctors” in this speciality of Biochemistry, which involves sciences of Clinical Medicine, Biochemistry, Physics, Electronics, Computing, Pharmaceutical, Genetics, Molecular studies and much more, leading the future with Artificial Intelligence.

Organizing Chairperson  
**Dr. K. Shanthi Naidu**  
Care Hopital, Hyderabad.
